If you failed to receive a Fountain Pen for Christmas, now is the time to buy a **Crocker Self-Filling Fountain Pen**. Until Jan. 24 I will give you a 10% discount on any Crocker Pen in my stock.

Postoffice Square **H. G. PERLEY** Barton, Vermont

The Every Day Drudgery

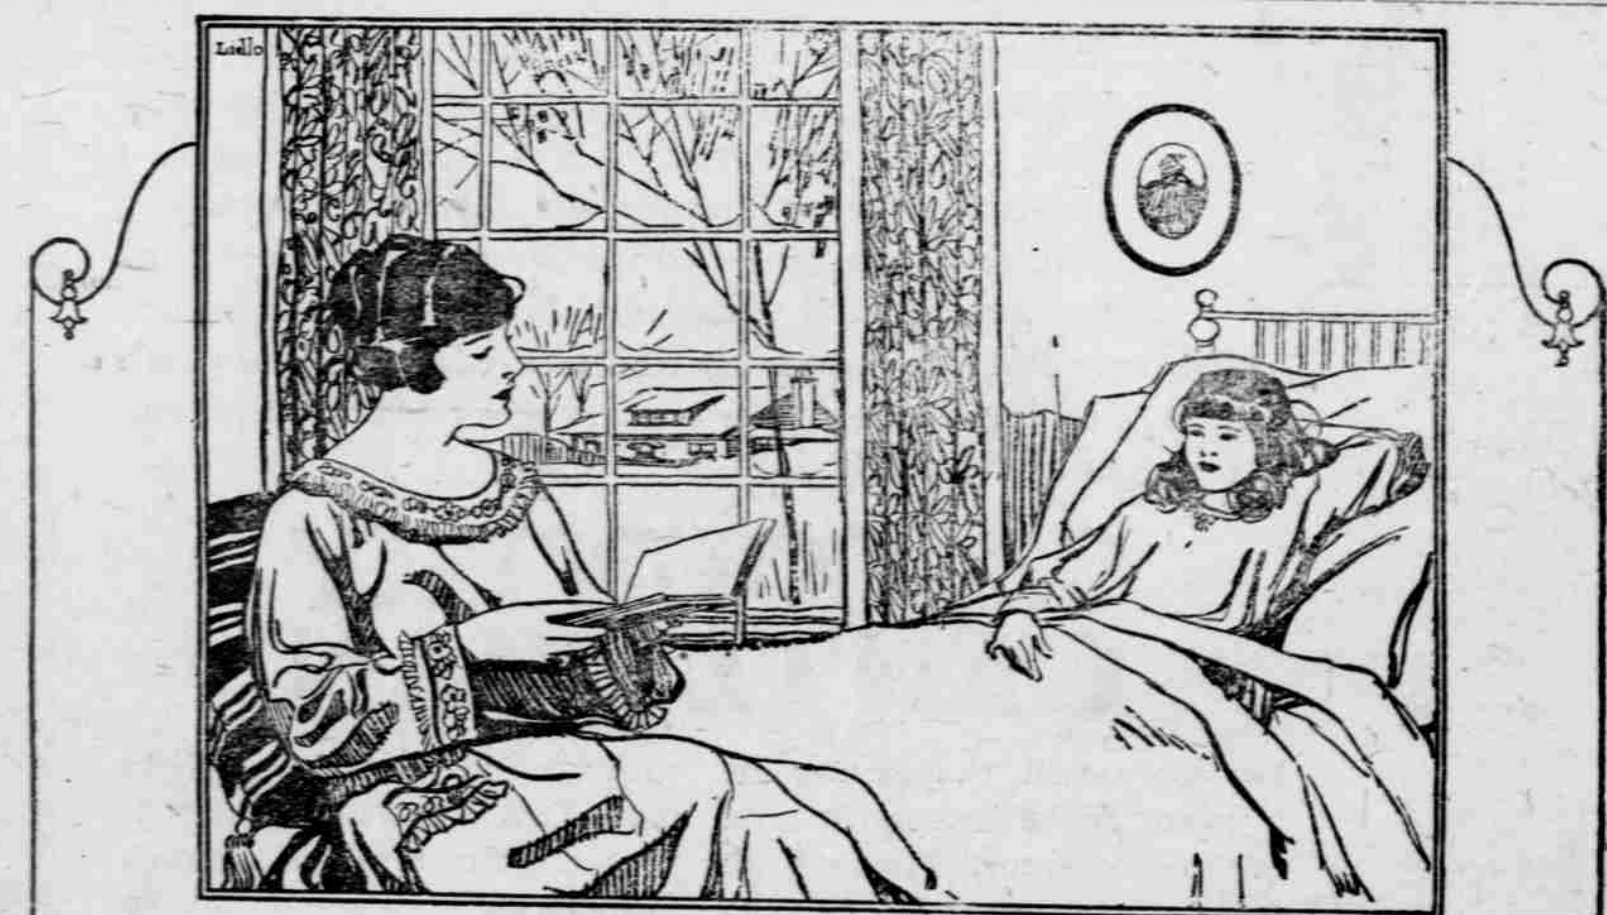

IS made more bearable with little surprises that may come to us through some friend or neighbor, when we are not expecting it. May be you didn't get the time or have the money to get the little surprise for your friend at Xmas, so why not make it an Xmas all the year by giving some little gift when least expected. Such an abundance of these can be found at our store and when you have a little leisure time you can spare come in and we will talk it over and help you to select the right thing. You can call every day and still find something new. If you haven't heard the Sonora machine you have missed a treat. We are glad to play the records to you any time. We think the tone of these machines surpass most any other in the market, also the whole mechanism in every respect is of the best. You can hear and judge for yourself.

Very respectfully,

Lang's Jewelry Store

A Friend In the House

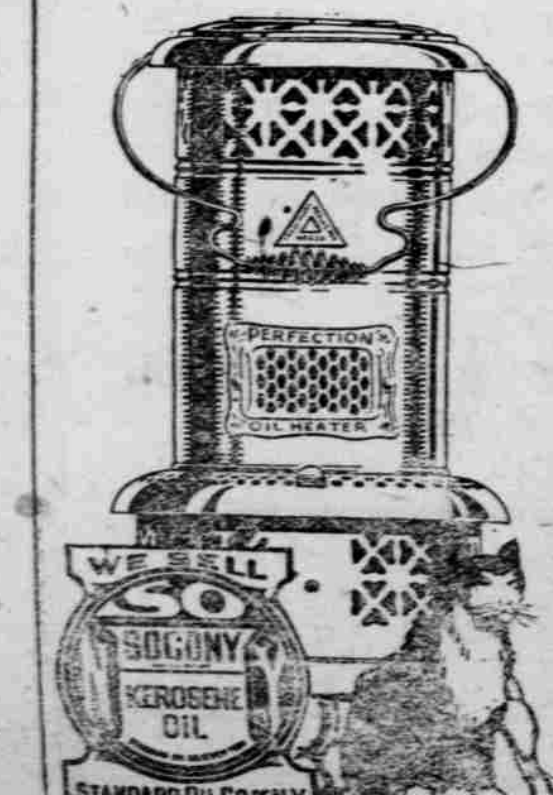

The portable Perfection Oil Heater brings cheery warmth to every part of every home—instantly, when needed—without bother—requires no cleaning—afterwards. Gives just the amount of heat when and where wanted.

The Perfection is safe, quick, odorless—creates no soot or dust—easily filled and re-wicked. Burns 10 hours on a gallon of kerosene. Over 3,000,000 in use.

Use SOCONY kerosene for best results

STANDARD OIL COMPANY OF NEW YORK

PERFECTION
Oil Heaters

GREENSBORO BEND

Mrs. Mary Allen is working at the hotel.

C. B. Sternberg is sick with the mumps.

Roscoe Allen is attending school in Lyndon.

Mrs. Mary Robinson is visiting her son in Sheffield.

Mrs. Ella Wilmerston is working at Carl Philbrook's.

Mrs. Lizzie Davis returned to her school in Wolcott Monday.

Mrs. Alvina Ransom has returned to her home in Stannard.

A. C. Chase and G. A. Porter were called to Newport Monday as jurors.

William Withers, who has been sick for sometime, is gradually failing.

Clyde Smith has moved his family from the Amsden tenement, into the Geo. Colby house.

T. W. Silver has been quite sick the past week with a quinsy sore but is a little better at this writing.

Mrs. Mattie Shepard has moved from the Fadden house into the tenement in the Sternberg house.

Mrs. Agnes Johnson and two children are visiting at the home of her father, T. W. Silver, for a few weeks.

GREENSBORO

Miss Amsden, a teacher in the Greensboro high school, completed her duties recently, having demanded an increase in salary which the directors failed to grant.

A fall on the ice three weeks ago and a resulting dislocated hip and injured spine caused the death last week of Mrs. J. D. Wilson of Greensboro at the age of 73 years.

EAST CHARLESTON

Mr. and Mrs. Geo. Lyons and Mr. and Mrs. Geo. Stone of Orleans visited at A. E. Allen's the past week.

Mr. and Mrs. G. B. Allen and Mr. Davis of Lyndonville visited at A. E. Allen's Sunday.

Judge For Yourself

Which Is Better—Try an Experiment or Profit by a Barton Citizen's Experience

Something new is an experiment. Must be proved to be as representative.

The statement of a manufacturer is not convincing proof of merit.

But the endorsement of friends is. Now supposing you had a bad back, a lame, weak or aching one.

Would you experiment on it? You will read of many so-called cures.

Endorsed by strangers from far-away places.

It's different when the endorsement comes from home.

Easy to prove local testimony. Read this Barton case.

C. H. Hammond, North Main St., says: "From hard work and heavy lifting, my kidneys became disordered and my back ached and pained. At times the kidney secretions were highly colored, and I had to get up often at night. I also have had a dull, aching pain in my back, which has been very annoying. When troubled this way I used Doan's Kidney Pills and they have always relieved me. I am very glad to recommend them."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Hammond had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

ALL THE ALBANY

ALBANY

Don't fail to be at church Sunday morning.

A postcard shower was given Mrs. Melissa Ferry one day last week.

A number of the children in the community are sick with colds this week.

Harvey Ferry has gone to New York for special treatments for his throat.

The Christmas tree in the M. E. church was much enjoyed by all who attended.

Fred Fletcher was taken ill Saturday with erysipelas, but is speedily recovering.

The recent snow storm has enabled the lumbermen to commence hauling logs to the mill yard.

Dr. Easton was in town last week attending Mrs. Fred Newton, who is ill with a severe cold.

A son was born to Mr. and Mrs. Charles Brown recently. Mrs. Mae Annis is the nurse in charge.

On Christmas morning the Ladies' Aid society of the M. E. church presented Mr. and Mrs. W. E. Craig with a purse of money. Among other gifts a very substantial piece of meat was given them by one of their loyal parishioners.

The children of Mrs. W. E. Craig's department in the public school presented her with a nice cup and saucer and a notebook for her birthday. There seems to be a comradeship existing between the pupils and their teacher that will be hard to break.

Mrs. Melissa B. Ferry had the misfortune recently to fall as she was carrying a pot of hot coffee from the stove. Besides having a blood vessel broken in her arm she was seriously scalded by the hot coffee. We all hope she may have a speedy recovery.

Rev. W. E. Sharp, district superintendent of St. Johnsbury district of the M. E. church will preach at the morning service Sunday and quarterly conference will be held immediately following the service. Every official is urgently requested to be present.

Card of Thanks—We wish to express through the medium of this paper our appreciation to the people of Albany for their many kindnesses and numerous gifts received during the past year. We extend the season's greetings to all our friends.

Mr. and Mrs. W. E. Craig.

Once again our community is saddened by the death of one of its citizens. On Tuesday, Jan. 6th, Mrs. caused by pneumonia and complications. Mrs. (Myrtle) Priest was called to her long home. Death was to mourn her loss a husband, Alson Mills, one son—Alson, Jr., who has been attending the academy in

Massachusetts, where she has been spending several months.

Mr. and Mrs. Tony Rey and Mr. and Mrs. Ralph Atwell of Orleans were guests at the home of their parents Sunday and Monday.

The annual donation and oyster supper of the M. E. church and society will be held in the church Friday evening, Jan. 16, Rev. A. M. Dawversity, is expected to be present.

The W. F. M. S. met Tuesday, Jan. 6th, at the parsonage with Mrs. Jennie Davison and Mrs. O. B. Wells. The study subject was India. Six women gave interesting accounts of conditions and needs there. The mystery box was taken up in part. There were 15 present. The next meeting will be held Jan. 27th with Mrs. John Morse.

EDITORIAL.

From the last issue of the Orleans County Farm Bureau News:

In the last issue of the Farm Bureau News mention was made that a certain Maple Sugar company was getting under way a marketing scheme that did not auger well to the benefit of the farmers. Since then, the editor of this news has discovered that he was misinformed on a few points as to the policy of this company. It has always been the purpose of this paper to put facts as they are, pointing out, whenever it seemed pertinent, any plans or schemes which worked to the disadvantage of the farming interests of this county. The proposition of this company is as follows: This company will be furnished by this company to the farmers for their syrup, payment to be made according to the price of sugar. If sugar sells at 19 cents the company will pay \$1.50 per gallon for syrup; 25 cent sugar will make syrup worth \$2.00 per gallon. If an advance in price is made before June 1, 1920, the farmers will be paid this increase. Sugar will be accepted by the farmers furnish the package; a farmer may sell his syrup to other concerns provided he pays this company for their steel drums. No signed contract is required of the farmer.

However, the editor reiterates his opinion made in the last issue that if the farmers would cooperate in marketing their sugar crop they could obtain a much higher price by selling direct to some concerns that could use several car loads. Only recently an inquiry came to the Farm Bureau office from a western concern about a supply of sugar and syrup for next spring. Less than two weeks ago a man who lives in St. Louis stated that there were a number of concerns in that city that would be glad to get in touch with some farmers' organizations that could guarantee to furnish them a supply of high quality maple products each year. It's worth considering.

Getting It Straight.

No, girls, the court clerk is not responsible for the sob stuff.—Louisville Courier-Journal.

Mrs. Archie Jones accompanied by her mother, returned last week from

Massachusetts, where she has been spending several months.

Mr. and Mrs. Tony Rey and Mr. and Mrs. Ralph Atwell of Orleans were guests at the home of their parents Sunday and Monday.

The annual donation and oyster supper of the M. E. church and society will be held in the church Friday evening, Jan. 16, Rev. A. M. Dawversity, is expected to be present.

PARKER-YOUNG CO.'S WAR MATERIAL OUTPUT

(Continued from Page One.)

assembling of box frames and nailing on bottoms was largely done with nailing machines but stapling and nailing rope handles was all hand work. It certainly surprised some men to enter the factory and watch the women who were taking such a part in providing boxes, and any man who had the idea in his head that a woman could not drive a nail without knocking out at once. These women became so expert at nailing that on piece work they could earn 33% more than men on the same work, and we believe that no crew of women ever worked with more enthusiasm than did these women.

When the contract was taken Mr. Doe agreed to fix up mill, and turn out, within one week 500 boxes per day for the first three weeks, and after that 1000 per day, and is proud to say that he far exceeded his expectations and went as high as 2300 per day. Each day the boxes made during the day had to be painted a dark grey color, and these boxes were shipped, over 3000 in a car.

Another department was turning rolls from three inch squares, making them round, clipping them to length, and boring a hole through them. Some were as long as 26 inches, and down to 12 inches. Thousands of rolls were made 6 inches long with a 1/2 inch hole bored through them and a steel shaft put in them with each end protruding 1/2 inch. These rolls and shafts were polished, and oiled and packed in cases, and so great was the demand for them at New Jersey shell factories that they were sent daily by express, packages weighing nearly one thousand pounds each. Large quantities of these rolls were used in the shell factory that was blown up in New Jersey.

A great many automatic machines were constructed for work on this war material. Two machines built by E. H. Choquette are machines with which one could measure and cut rope 12 inches long. All the women operators had to do was to set a basket under the outlet and as fast as the rope protruded through a brass tube to the length of 12 inches a knife descended and severed the rope and returned to await another 12 inches. Another machine constructed by Mr. Choquette was to cut 1/2 inch rope 34 and 36 inches long, measuring the same and clipping to exact length. These two machines saved a man's pay every day. Few people realize how much rope was used, but when it is known that six carloads of 1/2 inch rope done up in coils of 1200 feet each was used it can be seen what it would cost to cut and measure this rope by hand power.

For the small boxes there were over four carloads of scrap iron, and over two thin straps were used on each box. Other departments were manufacturing boxes for shipment of war material, such as hardware etc., and there was also manufactured many thousand small boxes, large enough to hold one gas mask and its equipment.

Many carloads of lumber such as siding, matched boards, etc., was shipped for the construction of Camp Devens. The Parker-Young Co., also United States Government at their war manufacturing boxes for the Lisbon, N. H. plant, and shipping carloads of aeroplane stock both from their Lisbon and Beebe River, N. H. plants.

IRASBURG

Hugh Potter is ill with measles.

Mrs. J. M. Lanou is on the sick list.

Mahlon Farman's little son, Homer, is ill with measles.

Nellie Peters is ill with measles.

Curtis Healey spent Sunday in Barre.
